

Green Beans

**Locally grown
Green Beans
served in your café!**

Pero Family Farms is located in Delray Beach, FL. Pero Family Farm is part of a remarkable five generation journey and specializes in green beans, cauliflower, broccoli, and MORE!

- Green beans grow in two ways: on bushes or on plants with long vines.
- There are at least 130 different kinds of beans. Most are green, but some are purple, yellow, or even spotted.
- The average production of snap green beans in the US each year is almost 800,000 tons.
- Blairsville, Georgia hosts an annual Green Bean Festival in July.

★ **Green beans are a good source of vitamin A!**
