

Dunagan Family Farms is a 4th generation farming family located in Homestead, FL.

- Okra is the edible seedpod of the okra plant. The pods develop from beautiful hibiscus-like flowers on the plant.
- Okra pods can be round or star shaped, and their color can be green or burgundy red.
- Okra grows well in Georgia's hot climate and is in season in Georgia from May through October.

★ Okra is high in vitamin A & vitamin C!

Locally grown Okra served this October!
